

PRESIDENCE DE LA REPUBLIQUE

## **Qana bombing in southern Lebanon Communique issued by the Presidency of the Republic**

Paris, 30 July 2006

President Chirac was appalled to learn of the act of violence which cost the lives of many innocent victims, particularly of women and children, in Qana, last night.

France condemns this unjustifiable action which demonstrates more clearly than ever the necessity of achieving an immediate ceasefire without which other tragedies can only keep on occurring
